

bringing assistive technology and device education to individuals and families living with autism

iTaalk's Top Apps for 2014

Making a decision to purchase a tablet for an individual with autism can be stressful enough. Making additional investments of time and finances in choosing apps can be overwhelming.

iTaalk has compiled a list of our favorite apps in both the Apple iTunes store as well as a list of comparable Android apps to make the process a little easier!

(Please note the pricing and availability of apps are constantly changing, and we at itaalk do our best to keep our list updated, but cannot guarantee the pricing or availability. The following list is informational only. iTaalk does not own or manage any of the apps listed below.)
